**TAX SAVINGS PLAN**

# A Message to Taxpayers from the Secretary of the Treasury

Through our representatives in Congress we have decided upon an "all-out" defense program. We have also expressed our preference for paying as much as possible of the cost of defense out of current earnings.

Your Government, therefore, is anxious that each taxpayer know as promptly as possible what his income tax bill will be. As a service to the taxpayers, I have had prepared the attached tables showing what you will have to pay in the coming year, and how much of your monthly income you should set aside regularly for tax payments.

Tax Savings Notes are now being sold by the Treasury because thousands of citizens asked for a plan to enable them to save money systematically and conveniently for this purpose. When you examine the attached tables you will, I think, see the usefulness of these Treasury Notes in helping you to meet your own tax payments next year. I am sure that your neighborhood bank will be glad to help you start such a savings program. If you wish any additional information, I shall be glad to have you write to me at the Treasury Department, Washington, D. C.

*Henry Morgenthau Jr.*  
Secretary of the Treasury

October 20, 1941.

THE attached tables show how much you will have to pay in individual income taxes on 1941 salary and wage incomes of selected sizes and the savings needed to meet these payments.

If your gross income is not more than \$3,000 and consists wholly of salaries, wages, other compensation for personal services, dividends, interest, rent, annuities, or royalties, you may make your tax payments in accordance with the instructions contained in Form 1040-A. In this case your tax will be slightly different from that shown in the following tables, but the monthly savings necessary will be approximately the same.

## START SAVING NOW *to make tax payments easier*

You will see from the tables that if your net income for 1941 is \$5,000 and you are a single person with no dependents, you must save at the rate of \$40 every month or \$483 a year for your Federal income taxes. If you are married but have no dependents, your savings for taxes should amount to \$31 per month or \$375 a year. If you are married and have one dependent, you must save \$27 per month or \$323 a year. If you are married and have two dependents, you must save \$23 per month or \$271 a year. If you are married and have three dependents, you must save \$18 per month or \$219 a year for the payment of Federal income taxes.

## CONSULT YOUR BANK *about Tax Savings Notes*

The Tax Savings Notes being offered by the Treasury to make it easier for taxpayers to plan ahead are being issued in two series, both dated August 1, 1941, and maturing August 1, 1943. They bear interest only when used to pay income taxes up to and including the month when the tax payment is made. The notes cannot be presented for payment of income taxes before January 1, 1942, and must be held by the purchaser at least three months if they are to be used for that purpose. On January 1 of each year hereafter, two new series of Notes will be provided so that a taxpayer can always purchase Notes during the entire year in which he is receiving his income for use in payment of taxes due the following year. Plan now to save some part of your income during the remaining months of *this* calendar year to be used for payment of Federal income taxes.

The Treasury urges that you go immediately to your neighborhood bank to secure detailed information about the Tax Savings Plan and how you personally can best take advantage of it. Treasury Department Circular No. 667 describing the Tax Savings Notes in detail has been sent to all banks, where you will find someone who will be glad to answer any questions.

It is extremely important that the increased Federal income taxes vitally necessary for National Defense be provided for in your budget as you would provide for other expenses.
